DOCUMENT

Digitally insert HiDef video and images into patient record

BROADCAST

Transmit real time first person view to entire clinical team

RECORD

Record Clinician's point of view – an invaluable tool for instruction.

FEATURING

- Your choice of two compact Hi Def cameras: 4K (4K / 13MP) and GO (1080P / 3.4MP)
- Easy to use, bluetooth enabled wireless foot-pedal for hands-free operation.
- NEW camera sensor reduces auto exposure and blooming in bright light
- Added horizontal alignment adjustment for more accurate pictures and videos
- Superior Low Light recording/photo ability
- Your choice of the MODULAR components you require, or the COMPLETE SYSTEM

DBR SOFTWARE

Document Broadcast and Record with the easy to use DBR software.

- Stable and intuitive to use
- True color rendition
- HIPAA compliant
- 24/7 support
